

OMNIBUS CRIME CONTROL AND SAFE STREETS

For Legislative History of Act, see p. 2112

PUBLIC LAW 90-351; 82 STAT. 197

[H. R. 5037]

An Act to assist State and local governments in reducing the incidence of crime, to increase the effectiveness, fairness, and coordination of law enforcement and criminal justice systems at all levels of government, and for other purposes.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That:

This Act may be cited as the "Omnibus Crime Control and Safe Streets Act of 1968".

TITLE I—LAW ENFORCEMENT ASSISTANCE**DECLARATIONS AND PURPOSE**

Congress finds that the high incidence of crime in the United States threatens the peace, security, and general welfare of the Nation and its citizens. To prevent crime and to insure the greater safety of the people, law enforcement efforts must be better coordinated, intensified, and made more effective at all levels of government.

Congress finds further that crime is essentially a local problem that must be dealt with by State and local governments if it is to be controlled effectively.

It is therefore the declared policy of the Congress to assist State and local governments in strengthening and improving law enforcement at every level by national assistance. It is the purpose of this title to (1) encourage States and units of general local government to prepare and adopt comprehensive plans based upon their evaluation of State and local problems of law enforcement; (2) authorize grants to States and units of local government in order to improve and strengthen law enforcement; and (3) encourage research and development directed toward the improvement of law enforcement and the development of new methods for the prevention and reduction of crime and the detection and apprehension of criminals.

**PART A—LAW ENFORCEMENT ASSISTANCE
ADMINISTRATION**

Sec. 101. (a) There is hereby established within the Department of Justice, under the general authority of the Attorney General, a Law Enforcement Assistance Administration (hereafter referred to in this title as "Administration").

(b) The Administration shall be composed of an Administrator of Law Enforcement Assistance and two Associate Administrators of Law Enforcement Assistance, who shall be appointed by the Presi-

dent, by and with the advice and consent of the Senate. No more than two members of the Administration shall be the same political party, and members shall be appointed with due regard to their fitness, knowledge, and experience to perform the functions, powers, and duties vested in the Administration by this title.

(c) It shall be the duty of the Administration to exercise all of the functions, powers, and duties created and established by this title, except as otherwise provided.

PART B—PLANNING GRANTS

Sec. 201. It is the purpose of this part to encourage States and units of general local government to prepare and adopt comprehensive law enforcement plans based on their evaluation of State and local problems of law enforcement.

Sec. 202. The Administration shall make grants to the States for the establishment and operation of State law enforcement planning agencies (hereinafter referred to in this title as "State planning agencies") for the preparation, development, and revision of the State plans required under section 303 of this title. Any State may make application to the Administration for such grants within six months of the date of enactment of this Act.

Sec. 203. (a) A grant made under this part to a State shall be utilized by the State to establish and maintain a State planning agency. Such agency shall be created or designated by the chief executive of the State and shall be subject to his jurisdiction. The State planning agency shall be representative of law enforcement agencies of the State and of the units of general local government within the State.

(b) The State planning agency shall—

(1) develop, in accordance with part C, a comprehensive statewide plan for the improvement of law enforcement throughout the State;

(2) define, develop, and correlate programs and projects for the State and the units of general local government in the State or combinations of States or units for improvement in law enforcement; and

(3) establish priorities for the improvement in law enforcement throughout the State.

(c) The State planning agency shall make such arrangements as such agency deems necessary to provide that at least 40 per centum of all Federal funds granted to such agency under this part for any fiscal year will be available to units of general local government or combinations of such units to enable such units and combinations of such units to participate in the formulation of the comprehensive State plan required under this part. Any portion of such 40 per centum in any State for any fiscal year not required for the purpose set forth in the preceding sentence shall be available for expenditure by such State agency from time to time on dates during such year

as the Administration may fix, for the development by it of the State plan required under this part.

Sec. 204. A Federal grant authorized under this part shall not exceed 90 per centum of the expenses of the establishment and operation of the State planning agency, including the preparation, development, and revision of the plans required by part C. Where Federal grants under this part are made directly to units of general local government as authorized by section 305, the grant shall not exceed 90 per centum of the expenses of local planning, including the preparation, development, and revision of plans required by part C.

Sec. 205. Funds appropriated to make grants under this part for a fiscal year shall be allocated by the Administration among the States for use therein by the State planning agency or units of general local government, as the case may be. The Administration shall allocate \$100,000 to each of the States; and it shall then allocate the remainder of such funds available among the States according to their relative populations.

PART C—GRANTS FOR LAW ENFORCEMENT PURPOSES

Sec. 301. (a) It is the purpose of this part to encourage States and units of general local government to carry out programs and projects to improve and strengthen law enforcement.

(b) The Administration is authorized to make grants to States having comprehensive State plans approved by it under this part, for—

(d) Not more than one-third of any grant made under this part may be expended for the compensation of personnel. The amount of any such grant expended for the compensation of personnel shall not exceed the amount of State or local funds made available to increase such compensation. The limitations contained in this subsection shall not apply to the compensation of personnel for time engaged in conducting or undergoing training programs.

Sec. 302. Any State desiring to participate in the grant program under this part shall establish a State planning agency as described in part B of this title and shall within six months after approval of a planning grant under part B submit to the Administration through such State planning agency a comprehensive State plan formulated pursuant to part B of this title.

Sec. 303. The Administration shall make grants under this title to a State planning agency if such agency has on file with the Administration an approved comprehensive State plan (not more than one year in age) which conforms with the purposes and requirements of this title. Each such plan shall—

(1) provide for the administration of such grants by the State planning agency;

(2) provide that at least 75 per centum of all Federal funds granted to the State planning agency under this part for any fiscal year will be available to units of general local government or combinations of such units for the development and imple-

(3) adequately take into account the needs and requests of the units of general local government in the State and encourage local initiative in the development of programs and projects for improvements in law enforcement, and provide for an appropriately balanced allocation of funds between the State and the units of general local government in the State and among such units;

(4) incorporate innovations and advanced techniques and contain a comprehensive outline of priorities for the improvement and coordination of all aspects of law enforcement dealt with in the plan, including descriptions of: (A) general needs and problems; (B) existing systems; (C) available resources; (D) organizational systems and administrative machinery for implementing the plan; (E) the direction, scope, and general types of improvements to be made in the future; and (F) to the extent appropriate, the relationship of the plan to other relevant State or local law enforcement plans and systems;

(5) provide for effective utilization of existing facilities and permit and encourage units of general local government to combine or provide for cooperative arrangements with respect to services, facilities, and equipment;

(6) provide for research and development;

(7) provide for appropriate review of procedures of actions taken by the State planning agency disapproving an application for which funds are available or terminating or refusing to continue financial assistance to units of general local government or combinations of such units;

(8) demonstrate the willingness of the State and units of general local government to assume the costs of improvements funded under this part after a reasonable period of Federal assistance;

(9) demonstrate the willingness of the State to contribute technical assistance or services for programs and projects contemplated by the statewide comprehensive plan and the programs and projects contemplated by units of general local government;

(10) set forth policies and procedures designed to assure that Federal funds made available under this title will be so used as not to supplant State or local funds, but to increase the amounts of such funds that would in the absence of such Federal funds be made available for law enforcement;

(11) provide for such fiscal control and fund accounting procedures as may be necessary to assure proper disbursement of and accounting of funds received under this part; and

(12) provide for the submission of such reports in such form and containing such information as the Administration may reasonably require.

Any portion of the 75 per centum to be made available pursuant to paragraph (2) of this section in any State in any fiscal year not required for the purposes set forth in such paragraph (2) shall be available for expenditure by such State agency from time to time on dates during such year as the Administration may fix, for the development and implementation of programs and projects for the improvement of law enforcement and in conformity with the State plan.

Sec. 304. State planning agencies shall receive applications for financial assistance from units of general local government and combinations of such units. When a State planning agency determines that such an application is in accordance with the purposes stated in section 301 and is in conformance with any existing statewide comprehensive law enforcement plan, the State planning agency is authorized to disburse funds to the applicant.

Sec. 305. Where a State fails to make application for a grant to establish a State planning agency pursuant to part B of this title within six months after the date of enactment of this Act, or where a State fails to file a comprehensive plan pursuant to part B within six months after approval of a planning grant to establish a State planning agency, the Administration may make grants under part B and part C of this title to units of general local government or combinations of such units: *Provided, however,* That any such unit or combination of such units must certify that it has submitted a copy of its application to the chief executive of the State in which such unit or combination of such units is located. The chief executive shall be given not more than sixty days from date of receipt of the application to submit to the Administration in writing an evaluation of the project set forth in the application. Such evaluation shall include comments on the relationship of the application to other applications then pending, and to existing or proposed plans in the State for the development of new approaches to and improvements in law enforcement. If an application is submitted by a combination of units of general local government which is located in more than one State, such application must be submitted to the chief executive of each State in which the combination of such units is located. No grant under this section to a local unit of general government shall be for an amount in excess of 60 per centum of the cost of the project or program with respect to which it was made.

Sec. 306. Funds appropriated to make grants under this part for a fiscal year shall be allocated by the Administration among the States for use therein by the State planning agency or units of general local government, as the case may be. Of such funds, 85 per centum shall be allocated among the States according to their respective populations and 15 per centum thereof shall be allocated as the Administration may determine, plus such additional amounts as may be made available by virtue of the application of the provisions of section 509 to the grant to any State.

Sec. 307. (a) In making grants under this part, the Administration and each State planning agency, as the case may be, shall give

special emphasis, where appropriate or feasible, to programs and projects dealing with the prevention, detection, and control of organized crime and of riots and other violent civil disorders.

(b) Notwithstanding the provisions of section 303 of this part, until August 31, 1968, the Administration is authorized to make grants for programs and projects dealing with the prevention, detection, and control of riots and other violent civil disorders on the basis of applications describing in detail the programs, projects, and costs of the items for which the grants will be used, and the relationship of the programs and projects to the applicant's general program for the improvement of law enforcement.

Sec. 403. A grant authorized under this part may be up to 100 per centum of the total cost of each project for which such grant is made. The Administration shall require, whenever feasible, as a condition of approval of a grant under this part, that the recipient contribute money, facilities, or services to carry out the purpose for which the grant is sought.

Sec. 404. (a) The Director of the Federal Bureau of Investigation is authorized to—

(b) Notwithstanding any other provision of law nothing contained in this title shall be construed to authorize the Administration (1) to require, or condition the availability or amount of a grant upon, the adoption by an applicant or grantee under this title of a percentage ratio, quota system, or other program to achieve racial balance or to eliminate racial imbalance in any law enforcement agency, or (2) to deny or discontinue a grant because of the refusal of an applicant or grantee under this title to adopt such a ratio, system, or other program.

(b) The Administration and the Comptroller General of the United States, or any of their duly authorized representatives, shall have access for purpose of audit and examinations to any books, documents, papers, and records of the recipients that are pertinent to the grants received under this title.

TITLE II—ADMISSIBILITY OF CONFESSIONS, REVIEWABILITY OF ADMISSION IN EVIDENCE OF CONFESSIONS IN STATE CASES, ADMISSIBILITY IN EVIDENCE OF EYE WITNESS TESTIMONY, AND PROCEDURES IN OBTAINING WRITS OF HABEAS CORPUS

Sec. 701. (a) Chapter 223, title 18, United States Code (relating to witnesses and evidence), is amended by adding at the end thereof the following new sections:

"§ 3501. Admissibility of confessions

"(a) In any criminal prosecution brought by the United States or by the District of Columbia, a confession, as defined in subsection (e) hereof, shall be admissible in evidence if it is voluntarily given. Before such confession is received in evidence, the trial judge shall, out of the presence of the jury, determine any issue as to voluntariness. If the trial judge determines that the confession was volun-

tarily made it shall be admitted in evidence and the trial judge shall permit the jury to hear relevant evidence on the issue of voluntariness and shall instruct the jury to give such weight to the confession as the jury feels it deserves under all the circumstances.

“(b) The trial judge in determining the issue of voluntariness shall take into consideration all the circumstances surrounding the giving of the confession, including (1) the time elapsing between arrest and arraignment of the defendant making the confession, if it was made after arrest and before arraignment, (2) whether such defendant knew the nature of the offense with which he was charged or of which he was suspected at the time of making the confession, (3) whether or not such defendant was advised or knew that he was not required to make any statement and that any such statement could be used against him, (4) whether or not such defendant had been advised prior to questioning of his right to the assistance of counsel; and (5) whether or not such defendant was without the assistance of counsel when questioned and when giving such confession.

“The presence or absence of any of the above-mentioned factors to be taken into consideration by the judge need not be conclusive on the issue of voluntariness of the confession.

“(c) In any criminal prosecution by the United States or by the District of Columbia, a confession made or given by a person who is a defendant therein, while such person was under arrest or other detention in the custody of any law-enforcement officer or law-enforcement agency, shall not be inadmissible solely because of delay in bringing such person before a commissioner or other officer empowered to commit persons charged with offenses against the laws of the United States or of the District of Columbia if such confession is found by the trial judge to have been made voluntarily and if the weight to be given the confession is left to the jury and if such confession was made or given by such person within six hours immediately following his arrest or other detention: *Provided*, That the time limitation contained in this subsection shall not apply in any case in which the delay in bringing such person before such commissioner or other officer beyond such six-hour period is found by the trial judge to be reasonable considering the means of transportation and the distance to be traveled to the nearest available such commissioner or other officer.

“(d) Nothing contained in this section shall bar the admission in evidence of any confession made or given voluntarily by any person to any other person without interrogation by anyone, or at any time at which the person who made or gave such confession was not under arrest or other detention.

“(e) As used in this section, the term ‘confession’ means any confession of guilt of any criminal offense or any self-incriminating statement made or given orally or in writing.

“§ 3502. Admissibility in evidence of eye witness testimony

“The testimony of a witness that he saw the accused commit or participate in the commission of the crime for which the accused is

being tried shall be admissible in evidence in a criminal prosecution in any trial court ordained and established under article III of the Constitution of the United States."

(b) The section analysis of that chapter is amended by adding at the end thereof the following new items:

"3501. Admissibility of confessions.

"3502. Admissibility in evidence of eye witness testimony."

TITLE III—WIRETAPPING AND ELECTRONIC SURVEILLANCE

FINDINGS

Sec. 801. On the basis of its own investigations and of published studies, the Congress makes the following findings:

(a) Wire communications are normally conducted through the use of facilities which form part of an interstate network. The same facilities are used for interstate and intrastate communications. There has been extensive wiretapping carried on without legal sanctions, and without the consent of any of the parties to the conversation. Electronic, mechanical, and other intercepting devices are being used to overhear oral conversations made in private, without the consent of any of the parties to such communications. The contents of these communications and evidence derived therefrom are being used by public and private parties as evidence in court and administrative proceedings, and by persons whose activities affect interstate commerce. The possession, manufacture, distribution, advertising, and use of these devices are facilitated by interstate commerce.

(b) In order to protect effectively the privacy of wire and oral communications, to protect the integrity of court and administrative proceedings, and to prevent the obstruction of interstate commerce, it is necessary for Congress to define on a uniform basis the circumstances and conditions under which the interception of wire and oral communications may be authorized, to prohibit any unauthorized interception of such communications, and the use of the contents thereof in evidence in courts and administrative proceedings.

(c) Organized criminals make extensive use of wire and oral communications in their criminal activities. The interception of such communications to obtain evidence of the commission of crimes or to prevent their commission is an indispensable aid to law enforcement and the administration of justice.

(d) To safeguard the privacy of innocent persons, the interception of wire or oral communications where none of the parties to the communication has consented to the interception should be allowed only when authorized by a court of competent jurisdiction and should remain under the control and supervision of the authorizing court. Interception of wire and oral communications should further be limited to certain major types of offenses and specific categories of

crime with assurances that the interception is justified and that the information obtained thereby will not be misused.

Sec. 802. Part I of title 18, United States Code, is amended by adding at the end of the following new chapter:

“(3) Any person who has received, by any means authorized by this chapter, any information concerning a wire or oral communication, or evidence derived therefrom intercepted in accordance with the provisions of this chapter may disclose the contents of that communication or such derivative evidence while giving testimony under oath or affirmation in any criminal proceeding in any court of the United States or of any State or in any Federal or State grand jury proceeding.

“(4) No otherwise privileged wire or oral communication intercepted in accordance with, or in violation of, the provisions of this chapter shall lose its privileged character.

“(5) When an investigative or law enforcement officer, while engaged in intercepting wire or oral communications in the manner authorized herein, intercepts wire or oral communications relating to offenses other than those specified in the order of authorization or approval, the contents thereof, and evidence derived therefrom, may be disclosed or used as provided in subsections (1) and (2) of this section. Such contents and any evidence derived therefrom may be used under subsection (3) of this section when authorized or approved by a judge of competent jurisdiction where such judge finds on subsequent application that the contents were otherwise intercepted in accordance with the provisions of this chapter. Such application shall be made as soon as practicable.

“§ 2518. Procedure for interception of wire or oral communications

“(1) Each application for an order authorizing or approving the interception of a wire or oral communication shall be made in writing upon oath or affirmation to a judge of competent jurisdiction and shall state the applicant's authority to make such application. Each application shall include the following information:

“(a) the identity of the investigative or law enforcement officer making the application, and the officer authorizing the application;

“(b) a full and complete statement of the facts and circumstances relied upon by the applicant, to justify his belief that an order should be issued, including (i) details as to the particular

offense that has been, is being, or is about to be committed, (ii) a particular description of the nature and location of the facilities from which or the place where the communication is to be intercepted, (iii) a particular description of the type of communications sought to be intercepted, (iv) the identity of the person, if known, committing the offense and whose communications are to be intercepted;

“(c) a full and complete statement as to whether or not other investigative procedures have been tried and failed or why they reasonably appear to be unlikely to succeed if tried or to be too dangerous;

“(d) a statement of the period of time for which the interception is required to be maintained. If the nature of the investigation is such that the authorization for interception should not automatically terminate when the described type of communication has been first obtained, a particular description of facts establishing probable cause to believe that additional communications of the same type will occur thereafter;

“(e) a full and complete statement of the facts concerning all previous applications known to the individual authorizing and making the application, made to any judge for authorization to intercept, or for approval of interceptions of, wire or oral communications involving any of the same persons, facilities or places specified in the application, and the action taken by the judge on each such application; and

“(f) where the application is for the extension of an order, a statement setting forth the results thus far obtained from the interception, or a reasonable explanation of the failure to obtain such results.

“(2) The judge may require the applicant to furnish additional testimony or documentary evidence in support of the application.

“(3) Upon such application the judge may enter an ex parte order, as requested or as modified, authorizing or approving interception of wire or oral communications within the territorial jurisdiction of the court in which the judge is sitting, if the judge determines on the basis of the facts submitted by the applicant that—

“(a) there is probable cause for belief that an individual is committing, has committed, or is about to commit a particular offense enumerated in section 2516 of this chapter;

“(b) there is probable cause for belief that particular communications concerning that offense will be obtained through such interception;

“(c) normal investigative procedures have been tried and have failed or reasonably appear to be unlikely to succeed if tried or to be too dangerous;

“(d) there is probable cause for belief that the facilities from which, or the place where, the wire or oral communications are to be intercepted are being used, or are about to be used, in connection with the commission of such offense, or are leased to, listed in the name of, or commonly used by such person.

"(4) Each order authorizing or approving the interception of any wire or oral communication shall specify—

"(a) the identity of the person, if known, whose communications are to be intercepted;

"(b) the nature and location of the communications facilities as to which, or the place where, authority to intercept is granted;

"(c) a particular description of the type of communication sought to be intercepted, and a statement of the particular offense to which it relates;

"(d) the identity of the agency authorized to intercept the communications, and of the person authorizing the application; and

"(e) the period of time during which such interception is authorized, including a statement as to whether or not the interception shall automatically terminate when the described communication has been first obtained.

"(5) No order entered under this section may authorize or approve the interception of any wire or oral communication for any period longer than is necessary to achieve the objective of the authorization, nor in any event longer than thirty days. Extensions of an order may be granted, but only upon application for an extension made in accordance with subsection (1) of this section and the court making the findings required by subsection (3) of this section. The period of extension shall be no longer than the authorizing judge deems necessary to achieve the purposes for which it was granted and in no event for longer than thirty days. Every order and extension thereof shall contain a provision that the authorization to intercept shall be executed as soon as practicable, shall be conducted in such a way as to minimize the interception of communications not otherwise subject to interception under this chapter, and must terminate upon attainment of the authorized objective, or in any event in thirty days.

"(6) Whenever an order authorizing interception is entered pursuant to this chapter, the order may require reports to be made to the judge who issued the order showing what progress has been made toward achievement of the authorized objective and the need for continued interception. Such reports shall be made at such intervals as the judge may require.

"(7) Notwithstanding any other provision of this chapter, any investigative or law enforcement officer, specially designated by the Attorney General or by the principal prosecuting attorney of any State or subdivision thereof acting pursuant to a statute of that State, who reasonably determines that—

"(a) an emergency situation exists with respect to conspiratorial activities threatening the national security interest or to conspiratorial activities characteristic of organized crime that requires a wire or oral communication to be intercepted before

an order authorizing such interception can with due diligence be obtained, and

“(b) there are grounds upon which an order could be entered under this chapter to authorize such interception, may intercept such wire or oral communication if an application for an order approving the interception is made in accordance with this section within forty-eight hours after the interception has occurred, or begins to occur. In the absence of an order, such interception shall immediately terminate when the communication sought is obtained or when the application for the order is denied, whichever is earlier. In the event such application for approval is denied, or in any other case where the interception is terminated without an order having been issued, the contents of any wire or oral communication intercepted shall be treated as having been obtained in violation of this chapter, and an inventory shall be served as provided for in subsection (d) of this section on the person named in the application.

“(8) (a) The contents of any wire or oral communication intercepted by any means authorized by this chapter shall, if possible, be recorded on tape or wire or other comparable device. The recording of the contents of any wire or oral communication under this subsection shall be done in such way as will protect the recording from editing or other alterations. Immediately upon the expiration of the period of the order, or extensions thereof, such recordings shall be made available to the judge issuing such order and sealed under his directions. Custody of the recordings shall be wherever the judge orders. They shall not be destroyed except upon an order of the issuing or denying judge and in any event shall be kept for ten years. Duplicate recordings may be made for use or disclosure pursuant to the provisions of subsections (1) and (2) of section 2517 of this chapter for investigations. The presence of the seal provided for by this subsection, or a satisfactory explanation for the absence thereof, shall be a prerequisite for the use or disclosure of the contents of any wire or oral communication or evidence derived therefrom under subsection (3) of section 2517.

“(b) Applications made and orders granted under this chapter shall be sealed by the judge. Custody of the applications and orders shall be wherever the judge directs. Such applications and orders shall be disclosed only upon a showing of good cause before a judge of competent jurisdiction and shall not be destroyed except on order of the issuing or denying judge, and in any event shall be kept for ten years.

“(c) Any violation of the provisions of this subsection may be punished as contempt of the issuing or denying judge.

“(d) Within a reasonable time but not later than ninety days after the filing of an application for an order of approval under section 2518(7) (b) which is denied or the termination of the period of an order or extensions thereof, the issuing or denying judge shall cause to be served, on the persons named in the order or the application, and such other parties to intercepted communications as the judge

may determine in his discretion that is in the interest of justice, an inventory which shall include notice of—

“(1) the fact of the entry of the order or the application;

“(2) the date of the entry and the period of authorized, approved or disapproved interception, or the denial of the application; and

“(3) the fact that during the period wire or oral communications were or were not intercepted.

The judge, upon the filing of a motion, may in his discretion make available to such person or his counsel for inspection such portions of the intercepted communications, applications and orders as the judge determines to be in the interest of justice. On an ex parte showing of good cause to a judge of competent jurisdiction the serving of the inventory required by this subsection may be postponed.

“(9) The contents of any intercepted wire or oral communication or evidence derived therefrom shall not be received in evidence or otherwise disclosed in any trial, hearing, or other proceeding in a Federal or State court unless each party, not less than ten days before the trial, hearing, or proceeding, has been furnished with a copy of the court order, and accompanying application, under which the interception was authorized or approved. This ten-day period may be waived by the judge if he finds that it was not possible to furnish the party with the above information ten days before the trial, hearing, or proceeding and that the party will not be prejudiced by the delay in receiving such information.

“(10) (a) Any aggrieved person in any trial, hearing, or proceeding in or before any court, department, officer, agency, regulatory body, or other authority of the United States, a State, or a political subdivision thereof, may move to suppress the contents of any intercepted wire or oral communication, or evidence derived therefrom, on the grounds that—

“(i) the communication was unlawfully intercepted;

“(ii) the order of authorization or approval under which it was intercepted is insufficient on its face; or

“(iii) the interception was not made in conformity with the order of authorization or approval.

Such motion shall be made before the trial, hearing, or proceeding unless there was no opportunity to make such motion or the person was not aware of the grounds of the motion. If the motion is granted, the contents of the intercepted wire or oral communication, or evidence derived therefrom, shall be treated as having been obtained in violation of this chapter. The judge, upon the filing of such motion by the aggrieved person, may in his discretion make available to the aggrieved person or his counsel for inspection such portions of the intercepted communication or evidence derived therefrom as the judge determines to be in the interests of justice.

“(b) In addition to any other right to appeal, the United States shall have the right to appeal from an order granting a motion to suppress made under paragraph (a) of this subsection, or the denial

of an application for an order of approval, if the United States attorney shall certify to the judge or other official granting such motion or denying such application that the appeal is not taken for purposes of delay. Such appeal shall be taken within thirty days after the date the order was entered and shall be diligently prosecuted.

“§ 2519. Reports concerning intercepted wire or oral communications

(k) The foregoing provisions of this section shall take effect upon the expiration of the six-year period immediately following the date of the enactment of this Act.

TITLE IV—STATE FIREARMS CONTROL ASSISTANCE FINDINGS AND DECLARATION

Sec. 901. (a) The Congress hereby finds and declares—

(1) that there is a widespread traffic in firearms moving in or otherwise affecting interstate or foreign commerce, and that the existing Federal controls over such traffic do not adequately enable the States to control this traffic within their own borders through the exercise of their police power;

(2) that the ease with which any person can acquire firearms other than a rifle or shotgun (including criminals, juveniles without the knowledge or consent of their parents or guardians, narcotics addicts, mental defectives, armed groups who would supplant the functions of duly constituted public authorities, and others whose possession of such weapons is similarly contrary to the public interest) is a significant factor in the prevalence of lawlessness and violent crime in the United States;

(3) that only through adequate Federal control over interstate and foreign commerce in these weapons, and over all persons engaging in the businesses of importing, manufacturing, or dealing in them, can this grave problem be properly dealt with, and effective State and local regulation of this traffic be made possible;

(4) that the acquisition on a mail-order basis of firearms other than a rifle or shotgun by nonlicensed individuals, from a place other than their State of residence, has materially tended to thwart the effectiveness of State laws and regulations, and local ordinances;

(5) that the sale or other disposition of concealable weapons by importers, manufacturers, and dealers holding Federal licenses, to nonresidents of the State in which the licensees' places of business are located, has tended to make ineffective the laws, regulations, and ordinances in the several States and local jurisdictions regarding such firearms;

(6) that there is a causal relationship between the easy availability of firearms other than a rifle or shotgun and juvenile and youthful criminal behavior, and that such firearms have been widely sold by federally licensed importers and dealers to emotionally immature, or thrill-bent juveniles and minors prone to criminal behavior;

(7) that the United States has become the dumping ground of the castoff surplus military weapons of other nations, and that such weapons, and the large volume of relatively inexpensive pistols and revolvers (largely worthless for sporting purposes), imported into the United States in recent years, has contributed greatly to lawlessness and to the Nation's law enforcement problems;

(8) that the lack of adequate Federal control over interstate and foreign commerce in highly destructive weapons (such as bazookas, mortars, antitank guns, and so forth, and destructive devices such as explosive or incendiary grenades, bombs, missiles, and so forth) has allowed such weapons and devices to fall into the hands of lawless persons, including armed groups who would supplant lawful authority, thus creating a problem of national concern;

(9) that the existing licensing system under the Federal Firearms Act does not provide adequate license fees or proper standards for the granting or denial of licenses, and that this has led to licenses being issued to persons not reasonably entitled thereto, thus distorting the purposes of the licensing system.

(b) The Congress further hereby declares that the purpose of this title is to cope with the conditions referred to in the foregoing subsection, and that it is not the purpose of this title to place any undue or unnecessary Federal restrictions or burdens on law-abiding citizens with respect to the acquisition, possession, or use of firearms appropriate to the purpose of hunting, trap shooting, target shooting, personal protection, or any other lawful activity, and that this title is not intended to discourage or eliminate the private ownership or use of firearms by law-abiding citizens for lawful purposes, or provide for the imposition by Federal regulations of any procedures or requirements other than those reasonably necessary to implement and effectuate the provisions of this title.
